

PROCUREMENT AND COMPLIANCE CIRCULAR

Circular No.: KMRL/PROC/2026/047

Date: 10 September 2026

Issued By: Procurement Department

Organization: Metro Infrastructure Development Corporation

Subject: Annual Maintenance Contract for Station Electrical Systems

The Procurement Department hereby informs all concerned departments that the Annual Maintenance Contract (AMC) for electrical systems installed at Central, East, and North Metro Stations is due for renewal.

The existing maintenance contract with **ABC Electrical Services Pvt. Ltd.** will expire on **30 September 2026**.

The Facilities and Electrical Maintenance Division must complete a technical assessment of the existing electrical systems before initiating the renewal process. The assessment report must be submitted to the Procurement Department by **20 September 2026**.

The contractor shall submit its revised commercial proposal and updated company documents no later than **22 September 2026**.

The Procurement Department shall evaluate the technical and commercial proposals and complete the evaluation process by **26 September 2026**.

The renewed Annual Maintenance Contract must be executed before the expiry of the existing contract on **30 September 2026**.

Responsibilities

The **Facilities and Electrical Maintenance Division** is responsible for:

1. Inspecting the electrical systems at Central, East, and North Metro Stations.
2. Preparing the technical assessment report.
3. Submitting the assessment report to the Procurement Department by 20 September 2026.
4. Identifying any safety or maintenance issues requiring immediate attention.

ABC Electrical Services Pvt. Ltd. is responsible for:

1. Submitting the revised commercial proposal.
2. Providing updated company registration and tax documents.
3. Providing valid electrical safety certification.
4. Submitting all required documents to the Procurement Department by 22 September 2026.

The **Procurement Department** is responsible for:

1. Verifying the submitted documents.
2. Evaluating the technical proposal.
3. Evaluating the commercial proposal.
4. Completing the evaluation by 26 September 2026.
5. Ensuring that the renewed contract is executed before the existing contract expires.

Compliance Requirements

All electrical maintenance activities must comply with applicable electrical safety regulations and the organization's internal safety procedures.

The contractor must maintain a valid electrical safety certification throughout the contract period.

All contractor personnel working inside metro stations must possess valid identification and authorization issued by the organization.

Any electrical work involving shutdown of station equipment must receive prior approval from the Facilities and Electrical Maintenance Division.

The contractor must immediately report any critical electrical safety issue discovered during inspection to the Facilities and Electrical Maintenance Division.

Important Dates

- **10 September 2026:** Circular issued.
- **20 September 2026:** Technical assessment report submission deadline.
- **22 September 2026:** Contractor proposal and documents submission deadline.
- **26 September 2026:** Procurement evaluation completion deadline.
- **30 September 2026:** Existing AMC expires.
- **Before 30 September 2026:** Renewed AMC must be executed.
